Mr Smith thought it would oblige them to keep another clerk. They would consider the matter & see if the Bank's wishes could be acquiesced in. Mr Smith retires next March, when probably a new system will be adopted.

- 7 Left the Bank at 4.25 to visit the Chancellor of the Ex. to acquaint him that the Bank contemplates the closing of the Swansea Branch Bank.

After waiting some time had an interview with the Chancellor who excused himself saying he was with Lord Derby in important business. The question of closing the Swansea Branch he left entirely in the hands of the Bank. They were the best judges of the degree of success of the proceeding. He gathered from what I said from the Editor that Ministers are not apprehensive of any position but arising out of the present & present. My hope is all matters right at the same time they admit that it will require a long while before confidence is restored. They are evidently well vexed at what has occurred & it is quite clear they had no anticipation of such an occurrence.

 4 Visited the Chancery of the G: at 1.30

He referred us to Mr Charles Mr C. L. Crafer on the subject of
 Mr Glynn & Baring's application as to investment of Canadian Bonds
 Fund. He lets of the Canadian Parliament in Dec 1842, Jan 1846
 & July 1847. The latter gives the Sinking Fund as 4/10 or £ 500,000
 and gives to the Gov^r in Council the power of withdrawing the
 investment in such manner as he may think best.

Mr Crafer went over to what papers on the first negotiation
 & 1st investment of 440000 £ or 1/2 of the Sinking Fund & also
 on the subsequent investments. In the meanwhile Mr Spooner
 was prepared to at once answer the question of the Chancellor
 that it was not expedient to move the bonds & putting due
 "next month in the manner proposed by Mr Glynn & Baring".

The Chancellor said that in consequence of the altered cir-
 cumstances he should require from the Board the loan of 1 Mill
 in G: Bds at 3/4 redeemable in 1863 and would address an
 official Request to the Bank in accordance with the Agreement

of the Bonds would be dated in Nov. 1858 and he
 should obtain the interest accruing from that date to the
 time of taking up the money in Dec: next. He added
 that he might tell us "between 4 bonds" thus affairs were
 very unsatisfactory, appeared. That matter had greatly changed
 since our last interview. He thought the Expt by his conduct was eating
 his own throat.

I told Mr Crafer 3726 = 14904 & to apply to Bank at 4 o'clock

King Charles Martyr

Friday 4th February 1859

- 5 Mr Crafer from the Treasury called to acquaint the Governor with the additional facts he had collected since our interview with him on Friday last at the Chamber. He had found a Memorandum left in the Treasury by Sir Charles Wood detailing a similar application on the part of the Canadian Government & from the remarks made by Sir Ch. Wood it may be inferred that his opinion was against granting permission to vary the amount of the Sinking Fund, & that it could be effected in the Bonds of the loan of £1,500,000 which was impracticable in as much as they were now in the market. The Governor gave an opinion in which the Deputy Governor concurred that it would be unadvisable to accede to the request of Messrs Glyn & Baring to issue in Bonds of the Canadian Government the £200,000 falling due 1st Dec^r & to be committed to the Bank on 1/2 of the Sinking Fund. He added that the Bank as Holders of £10,000 of the Guaranteed Bonds would certainly not cause to the Sinking Fund being invested in any other than British Government Securities. He would write to the Chancellor that such was the joint opinion of the Gov^r of the Bank.

 4 Deputation from Swansea introduced by Mr Siddulph
 Mr. L. L. Dillwyn Mr. Morris M. J. for Carmarthen &
 Mr. David Pugh M.P. for Carmarthenshire

The chief argument advanced by the Deputation was the increasing importance of the Port of Swansea anticipated by increasing communication with the Interior & the completion of the docks - that the advantages offered by the Bank of S.W. were now sufficiently known to the Traders of Swansea and the convenience of exchange of Notes & of 4d Bills - The Governor replied to these observations by stating that the Bank had been sufficiently long established for all its advantages & facilities to have become known to the Traders, that they had too neglected themselves of those advantages & that the business of the Bank was insignificant in the extreme. That the Bank Directors had contemplated the closing of the Bank but did not then determine to do so, hoping to see some improvement; but that now that the Sub. Agent had left to join a Bank in the Town & vicinity, & that the Council required other extensive repairs to be rebuilt, the Directors had thought it an appropriate moment to withdraw the Business of the Bank to Bristol. The Deputation seemed to be of opinion that the reasons offered by the Governor were insupportable - Continued in Page Sunday 30 Jan'y.

4 Course of Directors

Gov^r asks the Course if the Bonds of the Council in India of 1858 (Loan) may be admitted as approved Security on the occasion of the Quarterly advances. Mr Norman, while adhering to the opinion that the Course acted wisely in refusing to subscribe to the Loan; admits the Expediency of not rejecting the Bonds as an approved Security at the time of the Quarterly advances. He has great apprehension of Indian Finance generally. He thinks it is involved in immense difficulty. Mr. Mulciber asks if the Bonds issued in India will also be admitted. Mr. Latham remarks that they are Rupee Bonds and consequently not of a nature to be treated as the Bonds of the Loan 1858. The Course consents to the Governor allowing the Bonds of 1858 to be "an approved Security".
