

TABLE XI.

The figures of each British capital are given in the column headed "British". The figures of each foreign capital are given in the column headed "Foreign". The figures of each capital are given in the column headed "Total". The figures of each capital are given in the column headed "Total".

(1) 1844
(2) 1845
(3) 1846

The figures of each British capital are given in the column headed "British". The figures of each foreign capital are given in the column headed "Foreign". The figures of each capital are given in the column headed "Total".

TABLE XI.

The figures of each British capital are given in the column headed "British". The figures of each foreign capital are given in the column headed "Foreign". The figures of each capital are given in the column headed "Total".

TABLE XI. *THE BANK'S ACCOUNT during PERIODS of CRISIS.*

The figures of each division exhibit the general position of the Bank's Account from shortly before the event to which the Crisis or Monetary Disturbance was attributable, till such time as tranquillity would appear to have been partially restored :—

- (a) Crisis of 1847.
- (b) „ 1857.
- (c) „ 1866.

In each of these cases the Bank Act of 1844 was suspended. The Government Letters, authorizing an increased Issue of Notes against Securities, were issued on the 25th October 1847, the 12th November 1857, and the 11th May 1866; and, in 1857, the Issue was accordingly temporarily increased to the extent of £2,000,000.

- (d) 1873. Money Panic in New York.

In the autumn of this year, owing to the suspension of several Banking firms in New York, a severe panic occurred in that city, causing considerable disturbance here, with large withdrawals of gold.

- (e) 1878. Failure of the City of Glasgow and the West of England and South Wales District Banks.

An internal Banking panic was caused by the failure on the 2nd October of the City of Glasgow Bank, succeeded on the 9th December by that of the West of England and South Wales District Bank.

It will be observed that between the 26th September 1878, and the 18th January 1879, the Notes with the Public increased from £26,609,000 to £34,670,000; and, consequently, at the latter date, while the Reserve was only £9,584,000, the Bullion had reached the large total of £29,260,000.

As there are no daily accounts for 1847 in existence, the record for that period is weekly; that for 1857 and 1866 is daily; and that for 1873 and 1878 has been given weekly during the earlier part of the periods concerned, daily while the changes were most marked, and again weekly as the position appears to have gradually improved.
