

## National specific template Log NS.03 - material pooling arrangements

### General Comment

This annex contains additional instructions in relation to national specific template NS.03. The first column of the next table identifies the items to be reported by identifying the columns and lines as shown in the template.

This relates to annual submission of information for individual entities. The general purpose of this template is to enable basic analysis of the effect of material pooling arrangements on the undertaking's performance.

A material pooling arrangement can be defined as any pooling arrangement with capacity more than \$1 bn USD.

This template is to be reported from an accounting perspective.

All amounts are expressed in units of the currency used for reporting in accordance with the Implementing Technical Standard on Reporting (unless otherwise stated).
